Summary

Junior Full-Stack Developer with hands-on experience building responsive web applications using Angular, TypeScript, Node.js, and Express.js. Experienced in developing RESTful APIs, implementing JWT-based authentication, and integrating frontend applications with backend services and databases. Interested in building maintainable, user-focused applications and continuously improving software development skills.

Skills

Programming Languages
JavaScript, TypeScript, HTML5, CSS3

Frontend
Angular, SCSS, Bootstrap, Tailwind CSS, Responsive Web Design

Backend
Node.js, Express.js, RESTful APIs, JWT Authentication, Role-Based Access Control

Database
MongoDB, Mongoose, SQL Server

Tools
Git, GitHub, Postman

Projects

E-Commerce Web Application | Angular 22

- Developed a responsive e-commerce platform using **Angular 22 and TypeScript**.
- Built **25+ reusable UI components** and integrated **15+ RESTful API endpoints**.
- Implemented **authentication, routing, cart, checkout, and responsive layouts** across desktop, tablet, and mobile.

HireFlow – Full-Stack Job Portal | Angular 22 & Node.js

Developed a full-stack job portal using Angular 22 and Node.js, featuring job browsing, advanced job filtering, pagination, job applications, and application status tracking. Implemented RESTful APIs, JWT-based authentication and role-based access control for candidates and employers. Built a dashboard for managing applications, saved jobs, and user profiles, with MongoDB for data storage and Express.js for backend development.
